COMPOUND INTEREST

The trouble with most adver- ... tisers is that they expect im- ... mediate returns of large propor- ... tions. One prominent advertiser ... illustrates the principle of adver- ... tising in this way:

"The money expended for ... advertising is the same as ... if placed at interest. The ... profits from the advertising ... are virtually the interest on ... the investment.

"The sums spent for advertising ... are properly chargeable to cap- ... ital account because the result- ... ing good will is something that ... has value, which, if the adver- ... tising has been properly done, ... can usually be sold for the face ... value of the investment.

"The rate of interest is de- ... termined by the skill with which ... the investment is made.

"Just as the quickest way to ... increase invested wealth is by ... compounding the interest, just so ... the quickest way to realize re- ... sults from advertising is to com- ... pound the returns."—Advertising ... Experience.

Advertisers get good returns ... on the amount invested in ... our columns. We reach the ... people.
